# FROM THE GROUND FLOOR UP

"Coming together is a beginning. Keeping together is progress. Working together is success."
Henry Ford

**How many people are you in contact with daily?
And could you do your job without them?**

From the office, to the warehouse and the boardroom; in the car, at the airport and beyond – teams and individuals need to be in constant contact and work towards a common goal. Information is nothing unless it's up-to-the-minute and can be shared in a heartbeat.

The right technology is essential for helping ensure the flow of business today, because it enhances how individuals, departments and organisations interact – with each other, with information and with information technology.

Explore the latest solution portfolio from HP and discover a new world of business interaction. We combine customer-focused innovation with global resources, and provide a broad range of solutions and services specifically designed for large businesses today.

Better interaction. Better business. HP.

HP was number one in the Newsweek Green Rankings, featuring the environmental practices of America's 500 largest publicly traded companies!

State-of-the-art innovation

HP Professional Innovations are proven hard- and software innovations designed with customer needs in mind. They enhance security, improve ease of use, and help ensure reliability while protecting the environment. Visit **hp.com/go/innovations** for more information.

Exceptional service and support

HP Preferred Partners offer competitive pricing, custom configuration of your equipment, and will work with you to figure out the best solutions for your business. Also choose from a range of care options, such as HP Total Care, which includes the extensive range of HP Care Pack Services. It's all the support you need to stay up and running. See **hp.eu/totalcare** for details.

A stronger green commitment

HP has a comprehensive approach to environmental sustainability, with three main components: minimising our impact, helping our customers improve their environmental performance, and driving towards a sustainable, low-carbon economy. See **hp.com/hpinfo/globalcitizenship** for more information.

OPENING THE DOOR...

Welcome!

You'll know that first impressions last. Whether they're your partners, clients or employees, the impression they get upon entering your organisation is extremely important. So your reception staff need to be equipped with more than good organisational skills and a customer-service focus. Whether it's access to Outlook, calendars or the company directory they need, put data and functionality at their fingertips and open the door to enhanced service and efficiency. For Intel®-based performance, choose the **HP Compaq 6000 Pro Business PC**.

For greater security, versatility and expandability, choose the **HP Compaq dc7900 Desktop PC**.

> Joining us for lunch, Mr Smith? The cafeteria is superb!

The HP Compaq 6005 Pro Business PC

Built for power and energy savings, without compromising performance.

- Genuine Windows® 7 Professional, Genuine Windows® Vista® Business
- AMD Business Class processor technology with AMD Athlon™ II dual-core and AMD Phenom™ II dual-/triple-/quad-core processors, AMD 785G chipset

Care Pack: 3-year Next Business Day Onsite with Defective Media Retention UF360E

HP rp5700 Point of Sale Solution

More than a cash register or PC, it's a robust, long-lifecycle POS platform.

- Choice of HP peripherals, such as a magnetic stripe reader and receipt printer
- Wide selection of software applications
- High endurance to heat
- 80% efficient power supply and rated EPEAT Silver

Care Pack: 4-year Next Business Day Onsite UL589E

Top reasons to choose the HP Compaq 6000 Pro series:

- Enhanced visual experience: integrated dual-monitor capability and improved video and 3D graphics support
- A presentable desk: the new sleek look is available in two form factors (microtower for expandability or the Small Form Factor to save space)
- Faster data transfer and multi-tasking: with new DDR3 Memory
- Energy efficiency by design: optional 89% power supply, EPEAT Gold[1] and ENERGY STAR® specifications
- Easier serviceability: improved hood opening design and toolless chassis

With HP Professional Innovations, such as Password Manager for HP ProtectTools, which automatically stores and protects passwords.

Room with a view

HP LE1901w 48.3 cm (19-inch) diagonal Widescreen LCD Monitor offers crisp, clear, high-resolution views of your graphics, with a 1000:1 contrast ratio, sharp resolutions to 1440 x 900, and 160° viewing angle.

An intuitive helper

The **HP iPAQ 114 Classic Handheld** gives value and performance for a more organised day, wherever you are.

Cut the wires

Regain valuable workspace, and place ergonomic ease of operation at your fingertips with the **HP 2.4 GHz Wireless Keyboard and Mouse (NB896AA)**.

Full protection

HP Business PC Security Lock Kit (PV606AA) helps prevent removal of peripherals and the chassis cover.

HP Care Packs

Choose the support package and service level that best fits your budget and your needs. With HP Care Pack Services, you get fast, responsive support, convenient up-front payment and preset pricing, consistent expert repair services, as well as increased protection for your investment and your sensitive data. Visit **hp.com/eur/carepacks**

LIFE IN THE FAST LANE

Welcome to production

Speed is everything, yet quality cannot slip. The production team must function like a well-oiled machine. Prioritisation is essential, as is a robust, reliable IT infrastructure.

Our warehouse is a hub of activity

More than storage, the warehouse control system manages transport and ancillary equipment. An IT platform must be accessible, secure and reliable. For on-the-floor productivity, the team chooses ultra-thin, flexible **HP EliteBook 2730p Notebook PCs**.

To meet their high-speed needs, both teams are standardised on to **HP Compaq dc7900 Desktop PCs**. As well as being robust and secure, they are the most expandable minitowers on the market. Efficiently multi-task with integrated dual monitor support.

Store more

HP 16X SATA SuperMulti LightScribe DVD Drive (GF343AA) lets you store more data and record hours of video – with fast data transfers.

Do more

Maximise performance and storage with the high-capacity, reliable **HP 250 GB SATA 3.0 Gb/s Hard Drive (PY278AA)**.

For more power and performance at great value, choose the **HP xw4600 Workstation**. It helps you meet the increasingly demanding requirements of data-intensive applications.

HP Compaq dc7900 Desktop PC

Stability, enhanced security, efficiency – and ultra-slim.

- Genuine Windows® 7 Professional, Genuine Windows® Vista® Business
- Intel® Celeron® dual-core processor, Intel® Pentium® dual-core processor, Intel® Core™2 Duo processor, Intel® Core™2 Quad Q8200 processor, Intel® Q45 Express chipset

Care Pack: 4-year Next Business Day Onsite U7896E

HP Total Care

Get more value from your technology and better results for your business with HP Total Care. It's a complete package of HP services and support. Please see **hp.eu/totalcare** for more information.

Top reasons to choose the HP Compaq dc7900 Desktop PC:

- Certified environmentally friendly: 85 Plus efficient power supplies, ENERGY STAR qualified and EPEAT Gold[1] certified

- Greater productivity: with multi-core processors and new DDR2 memory

- Meets specific business needs: choice of three innovative and space saving form factors

- Management made easy: full range of remote management capabilities to lower maintenance costs

- Efficient multi-tasking: with dual-monitor support

With HP Professional Innovations, such as the Embedded Security Chip from HP ProtectTools, plus support for various physical locking solutions.

HP means greater dependability – which translates into reduced loss from downtime and system failures.

See more

The **HP LA2205wg 55.9 cm (22-inch) diagonal Widescreen LCD Monitor** offers 4-axis adjustability and is up to 50% more energy-efficient than previous generations. It holds EPEAT Gold[1] certification, and is TCO and ENERGY STAR 5 certified too. Add it to your desktop or notebook!

Productivity with a twist

Not only is it ultra-thin and lightweight, the **HP EliteBook 2730p** features a convertible, swivel tablet screen. Did you know that HP has created a line of ultra-slim docking stations and secondary batteries exclusively for the 2530p and 2730p notebooks? Return to your familiar desktop environment or leave the office in an instant, with the one-touch docking and undocking operation of the **HP Ultra-Light Docking Station (EQ773AA)**.

HP EliteBook 2730p Notebook PC

Ultra-thin convertible tablet in an innovative design.

- Genuine Windows® 7 Professional, Genuine Windows® Vista® Business

- Intel® Centrino® 2 with vPro™ technology

- 30.5 cm (12-inch) widescreen, 1.7 kg

Care Pack: 3-year Next Business Day Onsite with Defective Media Retention UE335E

Did you know …?

HP business desktop PCs and notebooks undergo thousands of hours of rigorous testing and a multi-tiered validation process. Chances are, if our experts couldn't break it, you won't. HP builds continuous improvement into every stage of the manufacturing and development process.

7

PERFECT FOR PURCHASING ... AND MORE

Human resources? Right down the hall

From the administrative tasks of time and attendance, to absence management and scheduling, HR staff need tried and tested solutions that are both dependable and easy to use. With all that sensitive data, security is a top priority, too. Accessories like the HP Long Life Battery add the longevity they need for interviews or training.

A good purchasing department needs much more than office supplies

A synchronised database is a must for maximum efficiency and cost control. Technology should allow for a fast and simple purchase process, easy compliance with company policy and speedy access to the right data during negotiations.

To hit the ground running, they use **HP ProBook 6545b Notebook PCs** for their long battery life and state-of-the-art security. Or they put performance in the palm of their hand, with the **HP iPAQ 214 Enterprise Handheld**.

For outstanding reliability, amazing graphics performance and Intel® Centrino® 2 with vPro™ technology, choose the **HP EliteBook 8530p Notebook PC**.

I like getting more … more resourceful features, more security, and the latest in wireless connectivity.

HP ProBook 6545b Notebook PC

The optimal combination of business-critical and innovative features.

- Genuine Windows® 7 Professional, Genuine Windows® Vista® Business
- AMD mobile processor technology, AMD dual-core processors
- ATI Mobility Radeon™ HD 4200 graphics
- 39.6 cm (15.6-inch) widescreen, 2.5 kg

Care Pack: 3-year Next Business Day Onsite with Defective Media Retention UE339E

HP Financial Services

Need more performance right now? With HP Financial Services you can easily rent, lease or finance the equipment you need and ensure a low total cost of ownership. Visit **hp.com/uk/go/hpfinancialservices** for more information.

**Top reasons to choose HP ProBook b series notebooks:**

- Latest in wireless connectivity: including optional HP Mobile Broadband, Wi-Fi certified WLAN, Bluetooth® technologies

- Maximised computing experience: add HP Common Accessories from docking stations to secondary batteries (up to 15h battery life)

- Reliability on the run: magnesium alloy structure for light weight and additional reliability

- Greater flexibility: touchpad or optional pointstick input device, optional 2 MP camera

With HP Professional Innovations, including HP QuickLook for e-mail and agenda access without booting up. HP 3D DriveGuard protects the hard drive and its data against shocks, bumps and drops.
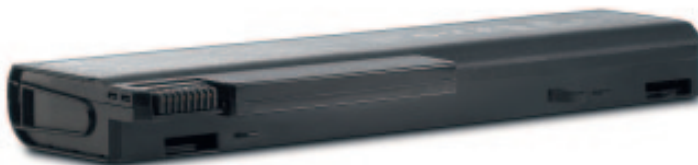

Stand to attention

HP Adjustable Notebook Stand (PA508A) provides ergonomic support with multiple viewing angles. Use with a docking station, like the **HP 120W Basic Docking Station (KP080AA)**.

Lock it up

HP Kensington Security Lock (PC766A) enables standalone usage or integrates into HP docking stations for enhanced security.

Extend it

The **NEW HP Long Life Battery (AU213AA)** has up to a three-year lifespan – so it lasts up to twice as long as most 6-cell Li-Ion notebook PC batteries. This helps save the environment and your budget.

Move it and present with it

HP Bluetooth ExpressCard Presenter Mouse (GK872AA) is a comfortable mouse with scroll, as well as presenter with laser pointer. It "lives" in the notebook ExpressCard Slot.

Did you know …?

HP is dedicated to reducing your environmental footprint with products that are significantly more energy-efficient. HP Power Assistant provides total visibility over your notebook PC's reported power consumption. HP monitors help dramatically reduce energy use. HP helps maximise battery lifetime, reducing the need to replace batteries, so fewer end up in landfills.

DOING MORE ...

Meet the IT team

The **HP Z400 Workstation** has helped them prove to the organisation that enhanced performance doesn't have to come at an enhanced price. Supporting the newest Intel® processor, the next-generation system architecture enables faster multi-tasking. The team view the results of their hard work on up to four 3D or six 2D displays. With a new chassis that is easy to service, optional liquid cooling, and quiet operation to blend unobtrusively into their work environment, the **HP Z400 Workstation** showcases HP innovation, inside and out.

HP LP2475w

If you need dual-processing power and have limited space, choose the **HP Z600 Workstation**.

Yes, on my mobile thin client! It gives me easy, secure access to data on the server, wherever I am in the company.

HP Z400 Workstation

Enhanced workstation performance in an affordable package.

• Genuine Windows® 7 Professional

• Intel® Xeon® processor 3500 series with Intel® X58 chipset

Care Pack: 3-year 4 hours 13x5 response Onsite with Defective Media Retention UK772E

Get smart

HP USB Smart Card Keyboard (ED707AA) uses Smart Card technology to prevent unauthorised access to your workstation and business networks.

With HP Professional Innovations, including HP Performance Tuning Framework to help ease configuration and updates, and Liquid Cooling, which allows for highest performance, without increasing thermal heat.

Did you know …?

HP Direct Services is a range of value-added services that work to directly simplify, optimise and streamline your business procurement and deployment. From integrated e-procurement, to factory customisation and onsite installations, you can improve performance, mitigate risks and save on overall total cost of ownership.

John, it's Bill!
Got the presentation?

... WITH LESS

Say hello to their users

Like many IT departments, the team faces ongoing challenges to secure company data, reduce expenses and minimise risk. They've found an ideal solution for many of their users: thin clients from HP. As a key component of a virtual desktop infrastructure, they leave data where it's safest: in the central data centre, providing a more secure, productive and flexible computing alternative. They're also easy to manage, upgrade and service.

Small space. Big view

The **HP Integrated Work Centre Stand (GN783AT)** is perfect for space-constrained environments. Enjoy a full range of tilt, swivel and height-adjustment settings.

Protect it all

Use a custom-fit **HP 35.6 cm (14-inch) Display Privacy Filter (AU100AA)** to help protect your confidential information from prying eyes. Pack everything in a protective and durable case, like the **HP Professional Series Carrying Case (AT886AA)**.

HP Compaq t5730w Thin Client

Ideal for the office, it provides a slim design with desktop-like features and support for local applications.

• Pre-installed with Genuine Windows® Embedded Standard

• AMD Sempron™ 2100+ Processor

Care Pack: 3-year Next Business Day Exchange U4847E

HP Compaq 4410t Mobile Thin Client

Meet thin client computing combined with the mobility of a notebook – all at a very affordable price.

• Pre-installed with Genuine Windows® Embedded Standard

• Intel® Celeron® processor 575, Mobile Intel® GL40 Express chipset

• 35.6 cm (14-inch) widescreen, 1.95 kg

Care Pack: 3-year Next Business Day Onsite for Travellers UL653E

Catch a fast mouse

HP USB 2-Button Laser Mouse (GW405AA) provides the speed and accuracy of laser tracking in a simple, elegant design.

HIGH-POWERED.
HIGHLY SECURE

Design and finance departments demand state-of-the-art performance

Our financial professionals need high-power tools for short turnaround on data analysis and what-if scenario calculations. The designers are real power users who live and breathe advanced image manipulation, 2D animation and 3D models.

Both teams have enhanced their work areas with **HP Z600 Workstations**. These pack eight-core compute and visualisation power into a small, quiet package, and are the ideal choice when every inch, watt and decibel makes a difference. Enjoy the view on up to eight screens! Whether they're creating intricate designs or checking budgets, the team can see and share their work across the world with new HP SkyRoom, which combines real-time 3D graphics sharing and video conferencing.

HP LP2275w

HP Z600 Workstation

Maximum computing power in minimal space.

- Genuine Windows® 7 Professional
- Intel® Xeon® quad-core X5550 processor, Intel® 5520 chipset

Care Pack: 3-year 4 hours 13x5 response Onsite with Defective Media Retention UK772E

> For performance beyond the office walls, choose the **HP EliteBook 8530w Mobile Workstation**.

HP EliteBook 8530w Mobile Workstation

Portable powerhouse.

- Genuine Windows® Vista® Business
- Intel® Core™2 Duo processor, Intel® Centrino® 2 with vPro™ processor technology (select models)
- 39.1 cm (15.4-inch) widescreen, 2.9 kg

Care Pack: 3-year Next Business Day Onsite for Travellers with Accidental Damage Protection UQ831E

> For more graphics-intensive applications with HP DreamColor Display, choose the **HP EliteBook 8730w Mobile Workstation**.

Ask the HP Workstations Specialists

When you're ready to purchase your HP workstation, you can trust HP Workstations Specialists for the expertise to help you choose the hardware that best meets your needs. Visit **hp.com/eur/preferredpartners** to find the partner nearest you.

Top reasons to choose HP Z series workstations:

- Revolutionary new look: brushed aluminium outside, integrated handles and visually cableless engineering
- Up for bigger computing challenges: they bring together and optimise the latest processors, memory and storage technologies
- Reduced power consumption: ENERGY STAR qualified configurations featuring 85–89% efficient power supplies
- State-of-the-art visuals: wide range of professional graphics from NVIDIA and ATI

HP Professional Innovations help protect your assets with a broad range of security features, including HP ProtectTools Embedded Security, and an array of hardware security devices.

Don't look out of the window

The **HP LP3065 76.2 cm (30-inch) Widescreen LCD Monitor** offers best-in-class performance and presentation features for those who need the ultimate colour and highest resolution.

HP LP3065

The sky's not the limit

HP SkyRoom is standard on HP workstations featuring Intel® Xeon® series processors. Connect and collaborate, in 3D and in an instant! The **HP SkyRoom Standard Hardware Kit** is available separately and contains **headphones** and a **webcam**.

Top reasons to choose HP EliteBook w series mobile workstations:

- Broad colour support and rich visual quality: workstation-calibre graphics performance and a desktop-like view, wherever you are working
- More manageability: HP Performance Tuning Framework helps ease configuration and updates while optimising a range of applications
- Superb connectivity and investment protection: HP Mobile Broadband upgradeable
- Peace of mind: extensive ISV certifications help ensure that software will always work on a notebook

HP Professional Innovations, including HP DuraFinish and HP DuraKeys for ultimate durability.

We needed enhanced resilience, availability and security – and easy compliance with stringent financial and legal regulations.

Houston, we have no problem

HP SpacePilot USB 3D (EF390AA) makes working in 3D easier with an HP SpacePilot Intelligent Controller.

Did you know …?

In partnership with DreamWorks, HP continues to develop technologies that bring ideas to life, as well as improve the collaborative creative process and cut production costs. The **HP DreamColor LP2480zx Professional Display** offers designers unprecedented colour consistency, and a range of over a billion colours.

HP DreamColor

SALES & MANAGEMENT GO MOBILE

Sales, management and more …

Calling all mobile professionals. The **HP EliteBook 6930p Notebook PC** sets a new standard for on-the-move productivity with up to 24 hours' battery life** and business ruggedness. With a starting weight of only 2.1 kg, this newly designed notebook meets multiple military-standard tests for durability. From breakfast to boardroom, and marketing presentation to mini cab, our teams rely on a host of HP accessories to further transform the way they work – including extended life batteries for the road, and docking stations for the convenience of a desktop-like environment.

Did you know the trial version of Microsoft® Office 2007 is already installed on HP notebooks, desktops and most workstations?*

To handle more graphics-intensive applications on a bigger screen, choose the **HP EliteBook 8530p Notebook PC** or the **HP EliteBook 8530w Mobile Workstation**.

HP EliteBook 6930p Notebook PC

Combination of our most innovative business-rugged features and latest technologies with manageability, business continuity and enhanced durability.

- Genuine Windows® 7 Professional, Genuine Windows® Vista® Business
- Intel® Core™2 Duo processor, new Intel® Centrino® 2 with vPro™ technology
- 35.6 cm (14-inch) widescreen, only 2.1 kg

Care Pack: 3-year Notebook Tracking and Recovery UL726E

Ready for tomorrow?

Microsoft® Office 2007 MLK Professional edition (RZ364A#) is a complete set of productivity tools for day-to-day tasks. It helps you save time, stay organised, produce professional communication, and more.

* Check availability. When you purchase the full licence, you can enter the product key to activate.

** Requires separately purchased HP Ultra-Capacity Battery and customer download of the latest Intel graphics driver and HP BIOS. Notebook must be configured with optional Intel 80 GB SSD drive and HP Illumi-Lite LED Display and requires the Microsoft® Windows® XP operating system. Battery life will vary depending on the product model, configuration, loaded applications, features, and power management settings. The maximum capacity of the battery will decrease with time and usage.

HP Delivery and Logistic Services

With your HP products, convenience comes as standard. Get them delivered directly to your door or desk, or opt for value-added services such as consolidated shipment of different products, special requests, delivery outside business hours, and more.

Top reasons to choose HP EliteBook p series notebooks:

- Built-in security: standard Smart Card, fingerprint and Embedded Security chip security hardware
- Ultimate reliability: magnesium chassis and anodised aluminium lid cover
- Easier to manage: with Image Stability, long lifecycles and vPro™ support
- Environmentally friendlier: EPEAT Gold[1] certification and power management features

With HP Professional Innovations, such as HP 3D DriveGuard which protects against bumps.

Pocket connectivity

The **HP iPAQ 914 Business Messenger** combines secure, reliable push e-mail connectivity with all your essential business tools and GPS to help you achieve more.

In case you leave

Take your show on the road with the **HP Ultralight Executive Case (AL539AA)**. It's non-scratch and durable, too.

In storage

The **HP External USB CD/DVD R/RW (FS943AA)** provides additional storage and is an easy, low-cost backup solution without burdening network resources.

One for the road

HP 90W Smart AC/Auto/Air Combo Adapter (AJ652AA) is a convenient, compact power source.

HP EliteBook 2530p Notebook PC

Smallest and lightest HP EliteBook, with optional integrated DVD.

- Genuine Windows® 7 Professional, Genuine Windows® Vista® Business
- Intel® Core™2 Duo LV processor, Intel® Core™2 Duo ULV processor, new Intel® Centrino® 2 with vPro™ technology
- 30.7 cm (12.1-inch), 1.4 kg

Care Pack: 3-year Next Business Day Onsite with Defective Media Retention UE335E

Power up

The **HP 2500 Series 9-cell Li-Ion Primary Battery (EH768AA)** keeps you powered up beyond the office.

Did you know …?

HP continuously modifies designs, considers alternative materials and reduces product sizes and packaging. HP Professional Innovations help reduce our carbon footprint, too – for example, HP DuraFinish surfaces are not just more scratch-resistant: they're also more recyclable than painted parts.

HP Advantage Series

Upgraded features and comfort-focused design.
LA1905wg (48.3 cm), **LA1951g** (48.3 cm), **LA2205wg** (55.9 cm), **LA2405wg** (61 cm)

Environment
• TCO and ENERGY STAR 5 Certified
• Provides up to 50% reduction in maximum power consumption
• EPEAT Gold certified
• Green cushion for 100% recyclable packaging*

Design
• Smooth and robust sliding foot
• Small footprint
• Slim packaging
• Optimum user ergonomics and space

Features
• Format choice: 5/4, 16/10
• 3000:1 dynamic contrast ratio

HP Performance Series

Top-end performance for graphics-intensive users.
LP1965 (48.3 cm), **LP2065** (50.8 cm), **LP2275w** (55.9 cm), **LP2475w** (61 cm), **LP2480zx** (61 cm), **LP3065** (76.2 cm)

Environment
• TCO certified

Design
• Maximum image accuracy at any viewing angle
• No blurring of moving images due to faster response times
• Ultra-thin bezel for panoramic viewing
• True-to-life colours with HP DreamColor
• Built-in HP Display Assistant lets you adjust settings and access security and asset management features

Features
• Format choice: 5/4, 3/4, 16/10
• 1000:1 dynamic contrast ratio

For greater user comfort and flexibility, choose the Advantage series.

For graphics-intensive use and simultaneous viewing of large data volumes, see the Performance series.

Attach anywhere

The **Flat Panel Monitor Quick Release (EM870AA)** allows you to quickly and securely attach a flat panel monitor to a variety of stands, brackets, arms or wall mounts. Add as an accessory to the Essential and Advantage Series, or get it delivered as standard with Performance Series monitors. Attach to the monitor speakers and external headphone via the **HP LCD Speaker Bar (NQ576AA)**.

* Applicable for LA1905wg, LA2205wg, LA2405wg

OUR STAR PERFORMERS

When you have larger-than-life ideas, it can take more than even the average desktop PC to realise them. Whether it's building bridges, designing animated characters or running complex simulations, if you're looking for power and performance far beyond the ordinary, you've just found it: meet the new workstations from HP.

HP xw4600 Workstation

Affordable innovation with the power to do more.

- Genuine Windows® 7 Professional
- Intel® Core™2 Duo processor, Intel® Core™2 Quad processor, Intel® X38 Express chipset

HP Z400 Workstation

Raising the bar for entry workstations.

- Genuine Windows® 7 Professional
- Intel® Xeon® processor, Intel® X58 chipset

Key features:

Key benefits:

HP xw4600 Workstation

- Outstanding price/performance and free remote management software
- Energy savings (85% efficient power supply; ENERGY STAR qualified)
- Expandable investment (4 DIMM slots, up to 8 GB DDR2 memory, up to four internal hard drives)
- Toolless chassis that is easy to service

HP Z400 Workstation

- Choice of latest dual- or quad-core Intel® Xeon® processors for faster performance
- Energy savings (85% efficient power supply; ENERGY STAR qualified; optional liquid cooling)
- Expandable investment (4 DIMM slots, up to 16 GB DDR3 memory)
- All Z series workstations have a sleek industrial design with quiet acoustics and rapid serviceability

For additional computing and graphics performance, choose the Z400.

For dual-processing power in a limited space, choose the Z600.

HP Z600 Workstation

Maximum computing power in minimal space.

- Genuine Windows® 7 Professional
- Intel® Xeon® processor, Intel® 5520 chipset

HP Z800 Workstation

The ultimate in power and expandability.

- Genuine Windows® 7 Professional
- Intel® Xeon® processor, Intel® 5520 chipset (dual)

HP xw9400 Workstation

Extreme visualisation and expandability.

- Genuine Windows® Vista® Business
- AMD Opteron™ dual-, quad- and six-core processors, NVIDIA nForce Professional chipset

---

- Eight-core power in HP's smallest, quietest design
- Energy savings (85% efficient power supply; ENERGY STAR qualified; optional liquid cooling)
- Maximum I/O bandwidth and expandability (Gen2 PCI Express slots; up to 5 storage bays)
- Support for up to 8 displays with 2D and 4 displays with 3D graphics

- Highest speed and power for your biggest challenges
- Energy savings (85–89% efficient power supply; ENERGY STAR qualified; optional liquid cooling)
- Near endless expansion (range of PCI Express Gen2 slots; up to 192 GB memory)
- HP Remote Graphics Software

- 8 channel serial attached SCSI (SAS)
- AMD "Direct Connect Architecture" to help eliminate bottlenecks
- Fully duplexed dual PCI Express x16 ports support two high-end graphics cards
- Superb expansion (up to five hard drives, eight built-in SAS ports)

For ultimate Intel® performance and expandability, choose the Z800.

For AMD's top-performing, expandable workstation, choose the xw9400.

THE BIG BENEFITS OF GETTING THIN

Keeping company data secure, reducing operational expenses, minimising risk … There's an ideal solution to these ongoing challenges: thin clients from HP. They work through a server-based network, so data never leaves the data centre, making them more secure. Thin clients contain no moving parts that can break, so they're more reliable, too. Choose from our comprehensive portfolio of thin clients to find the product that meets your specific needs. HP offers a complete manageability and software solution framework, including Microsoft® and Linux operating systems. It's no wonder we're the market leader.

HP Compaq t5145 Thin Client

Simple solution at our best price.

Key features:
- HP ThinConnect or HP ThinPro
- VIA Eden 500 MHz processor
- Built-in dual monitor support (VGA and DVI-D native)
- Secure USB compartment
- Four USB 2.0 ports

Key benefits:
- Superb price/performance and easy management
- Straightforward usability thanks to a stateless mode (user-specific settings downloaded each time a user logs in)

HP Compaq t5540/t5545 Thin Client

Enhanced features for mainstream business use.

- Genuine Windows® CE (t5540) or HP ThinPro operating system (t5545)
- VIA Eden 1 GHz processor
- Built-in dual-monitor support (VGA and DVI-D native)
- Secure USB compartment
- Four USB 2.0 ports

Key benefits:
- True desktop experience for general office and web applications
- Enhanced security and reliability

HP Compaq t5630w Thin Client

Cost-effective, with flexibility and power.

- Genuine Microsoft® Windows® Embedded Standard
- VIA Eden 1 GHz processor
- Built-in dual-monitor support (VGA and DVI-D native)
- Secure USB compartment
- Four USB 2.0 ports

Key benefits:
- Dual-monitor and widescreen support
- Enhanced, multi-layered security and expanded VDI support

For a web browser and multimedia support, choose the t5540 or t5545.

For more flexibility, choose the HP t5630w.

For more power and flexibility, choose the HP t5730w.

Did you know …?

• Thin clients can be up to 80% more power efficient than traditional desktop PCs with similar capabilities.

• They have a smaller footprint and superb ergonomics.

• Thin clients have an extended product life of up to five years.

Use the HP Return-on-Investment Calculator to precisely calculate the return in terms of improved productivity, more effective user support, enhanced security, and more. Visit **hp.com/go/remoteclients**

4410t
**35.6 cm (14"),
1.95 kg**

HP Compaq t5730w/t5735 Thin Client

Outstanding performance, highly flexible, innovative.

• Genuine Microsoft® Windows® Embedded Standard (t5730w) or Debian Linux OS (t5735)

• AMD Sempron™ 2100+ processor

• Optional Expansion Module with PCI and PCI Express x1

• Integrated wireless technology (optional)

• Six USB 2.0 ports

HP gt7720/gt7725

True PC performance, but with thin client benefits.

• Genuine Microsoft® Windows® Embedded Standard (gt7720) or HP ThinPro operating system (gt7725)

• 2.3 GHz AMD Turion™ 64 dual-core processor for exceptional performance

• Excellent graphics support

• Quad monitor support for selected gt7725 models

• Six USB 2.0 ports

HP Compaq 4410t Mobile Thin Client

Flexibility of a thin client in a mobile form factor for enhanced security.

• Genuine Windows® Embedded Standard

• New design with 35.6 cm (14-inch) screen and weighing only 1.95 kg

• Write filter, HP ThinState Tools

• Altiris Deployment Solution

• Solid-state hard drive up to 2 GB

• Powerful server-based computing experience in a slim design

• Debian Linux platform allows installation of any of the hundreds of open source applications from the web (t5735)

• Superior power and rich multimedia functionality

• Greater security, reliability, easier management

• Integrated HP Professional Innovations for greater security, reliability, ease of use on the move

• Secure server-based access at an affordable price

For extraordinary performance and superb multimedia, choose the HP gt7720 or gt7725.

If mobility is a priority, choose the 4410t Mobile Thin Client.
